

its advisory bodies for purposes of receiving the recommendations of the appeals committee members on the appeal. An appellant may also make a personal appearance before the appeals committee.

(4) The appeals committee will meet only once to consider appeals submitted within the time period specified in paragraph (f)(3) of this section. Members of the appeals committee will provide their individual recommendations for each appeal to the RD. Members of the appeals committee may comment upon whether the eligibility criteria, specified in the FMP and in paragraph (b) of this section, were correctly applied in each case, based solely on the available record, including documentation submitted by the appellant. The RD will decide the appeal based on the initial eligibility criteria in paragraph (b) of this section and the available record, including documentation submitted by the appellant and the recommendations and comments from members of the appeals committee. The RD will notify the appellant of the decision and the reason therefore, in writing, normally within 30 days of receiving the recommendation from the appeals committee members. The RD's decision will constitute the final administrative action by NMFS on an appeal.

(g) *Display*. A commercial vessel permit issued under this section must be carried on board the vessel. The operator of a vessel must present the permit for inspection upon the request of an authorized officer.

(h) *Fishing zones*. (1) The South Atlantic EEZ is divided into three fishing zones for golden crab. A vessel owner must indicate on the initial application for a commercial vessel permit the zone in which the vessel will fish. A permitted vessel may fish for golden crab only in the zone shown on its permit. A vessel may possess golden crab only in that zone, except that other zones may be transited if the vessel notifies NMFS, Office of Enforcement, Southeast Region, St. Petersburg, FL, by telephone (813-570-5344) in advance and does not fish in an unpermitted zone. The designated fishing zones are as follows:

(i) Northern zone—the South Atlantic EEZ north of 28° N. lat.

(ii) Middle zone—the South Atlantic EEZ from 25° N. lat. to 28° N. lat.

(iii) Southern zone—the South Atlantic EEZ south of 25° N. lat.

(2) An owner of a permitted vessel may have the zone specified on a permit changed only when the change is from the middle or southern zone to the northern zone. A request for such change must be submitted to the RD with the existing permit.

(i) *Transfer*. (1) A valid golden crab permit may be transferred for use by another vessel by returning the existing permit(s) to the RD along with an application for a permit for the replacement vessel.

(2) To obtain a commercial vessel permit via transfer, the owner of the replacement vessel must submit to the RD a valid permit for a vessel with a documented length overall, or permits for vessels with documented aggregate lengths overall, of at least 90 percent of the documented length overall of the replacement vessel.

(j) *Renewal*. (1) In addition to the procedures and requirements of § 622.4(h) for commercial vessel permit renewals, for a golden crab permit to be renewed, the SRD must have received reports for the permitted vessel, as required by § 622.5(a)(1)(v), documenting that at least 5,000 lb (2,268 kg) of golden crab were landed from the South Atlantic EEZ by the permitted vessel during at least one of the two 12-month periods immediately prior to the expiration date of the vessel permit.

(2) An existing permit for a vessel meeting the minimum golden crab landing requirement specified in paragraph (j)(1) of this section may be renewed by following the procedure specified in paragraph (d) of this section. However, documentation of the vessel's initial eligibility need not be resubmitted.

[61 FR 43957, 43959, Aug. 27, 1996]

## Subpart C—Management Measures

### § 622.30 Fishing years.

The fishing year for species or species groups governed in this part is January

1 through December 31 except for the following:

(a) *Allowable octocoral*— October 1 through September 30.

(b) *King and Spanish mackerel*. The fishing year for the king and Spanish mackerel bag limits specified in §622.39(c)(1) is January 1 through December 31. The following fishing years apply only for the king and Spanish mackerel quotas specified in §622.42(c):

(1) *Gulf migratory group king mackerel*— July 1 through June 30.

(2) *All other migratory groups of king and Spanish mackerel*— April 1 through March 31.

(c) *Wreckfish*— April 16 through April 15.

#### § 622.31 Prohibited gear and methods.

In addition to the prohibited gear/methods specified in this section, see §§622.33, 622.34, and 622.35 for seasonal/area prohibited gear/methods and §622.41 for species specific authorized and unauthorized gear/methods.

(a) *Explosives*. An explosive (except an explosive in a powerhead) may not be used to fish in the Caribbean, Gulf, or South Atlantic EEZ. A vessel fishing in the EEZ for a species governed in this part, or a vessel for which a permit has been issued under §622.4 or §622.17, may not have on board any dynamite or similar explosive substance.

(b) *Chemicals and plants*. A toxic chemical may not be used or possessed in a coral area, and a chemical, plant, or plant-derived toxin may not be used to harvest a Caribbean coral reef resource in the Caribbean EEZ.

(c) *Fish traps*. (1) A fish trap may not be used in the South Atlantic EEZ.

(2) A fish trap may not be used or possessed in the Gulf EEZ west of 85°30' W. long. and, after February 7, 2007, may not be used or possessed in the Gulf EEZ.

(3) A fish trap used other than where authorized in paragraph (c) (1) or (2) of this section may be disposed of in any appropriate manner by the Assistant Administrator or an authorized officer.

(d) *Gillnets*. A gillnet that has a float line that is more than 1,000 yd (914 m) in length or a drift gillnet may not be used in the Gulf, Mid-Atlantic, or South Atlantic EEZ to fish for king or Spanish mackerel; in the Gulf or South

Atlantic EEZ to fish for coastal migratory pelagic fish, other than bluefish; or in the Gulf EEZ to fish for bluefish. A vessel in, or having fished on a trip in, the Gulf, Mid-Atlantic, or South Atlantic EEZ with such a gillnet or a drift gillnet on board may not have on board on that trip any of the indicated fish.

(e) *Longlines for wreckfish*. A bottom longline may not be used to fish for wreckfish in the South Atlantic EEZ. A person aboard a vessel that has a longline on board may not retain a wreckfish in or from the South Atlantic EEZ. For the purposes of this paragraph, a vessel is considered to have a longline on board when a power-operated longline hauler, a cable of diameter suitable for use in the longline fishery longer than 1.5 mi (2.4 km) on any reel, and gangions are on board. Removal of any one of these three elements constitutes removal of a longline.

(f) *Poisons*. (1) A poison, drug, or other chemical may not be used to fish for Caribbean reef fish in the Caribbean EEZ.

(2) A poison may not be used to take Gulf reef fish in the Gulf EEZ.

(3) A poison may not be used to fish for South Atlantic snapper-grouper in the South Atlantic EEZ.

(g) *Power-assisted tools*. A power-assisted tool may not be used in the Caribbean EEZ to take a Caribbean coral reef resource or in the Gulf or South Atlantic EEZ to take allowable octocoral, prohibited coral, or live rock.

(h) *Powerheads*. A powerhead may not be used in the Caribbean EEZ to harvest Caribbean reef fish or in the EEZ off South Carolina to harvest South Atlantic snapper-grouper. The possession of a mutilated Caribbean reef fish in or from the Caribbean EEZ, or a mutilated South Atlantic snapper-grouper in or from the EEZ off South Carolina, and a powerhead is *prima facie* evidence that such fish was harvested by a powerhead.

(i) *Rebreathers and spearfishing gear*. In the South Atlantic EEZ, a person using a rebreather may not harvest South Atlantic snapper-grouper with spearfishing gear. The possession of such snapper-grouper while in the
